Introduction

Cemer "dreams come true"

"Your child's play is no longer random — it's planned and purposeful!"

Recommended Products

Gross Motor Skills

Gross motor skills involve large muscle movements like walking, jumping, and climbing. These skills are essential for balance and overall coordination.

SPIDER GROUP - SGM 1020-D

SGM 1020-D

TIMBER SERIES - AGTS 504

AGTS 504

JUNGLE SERIES - GGJS 1003-P

GGJS 1003-P

Vestibular and Proprioceptive Stimulation

Vestibular and proprioceptive input activate sensory systems responsible for balance, movement, and body awareness. They help children control body posture and motion.

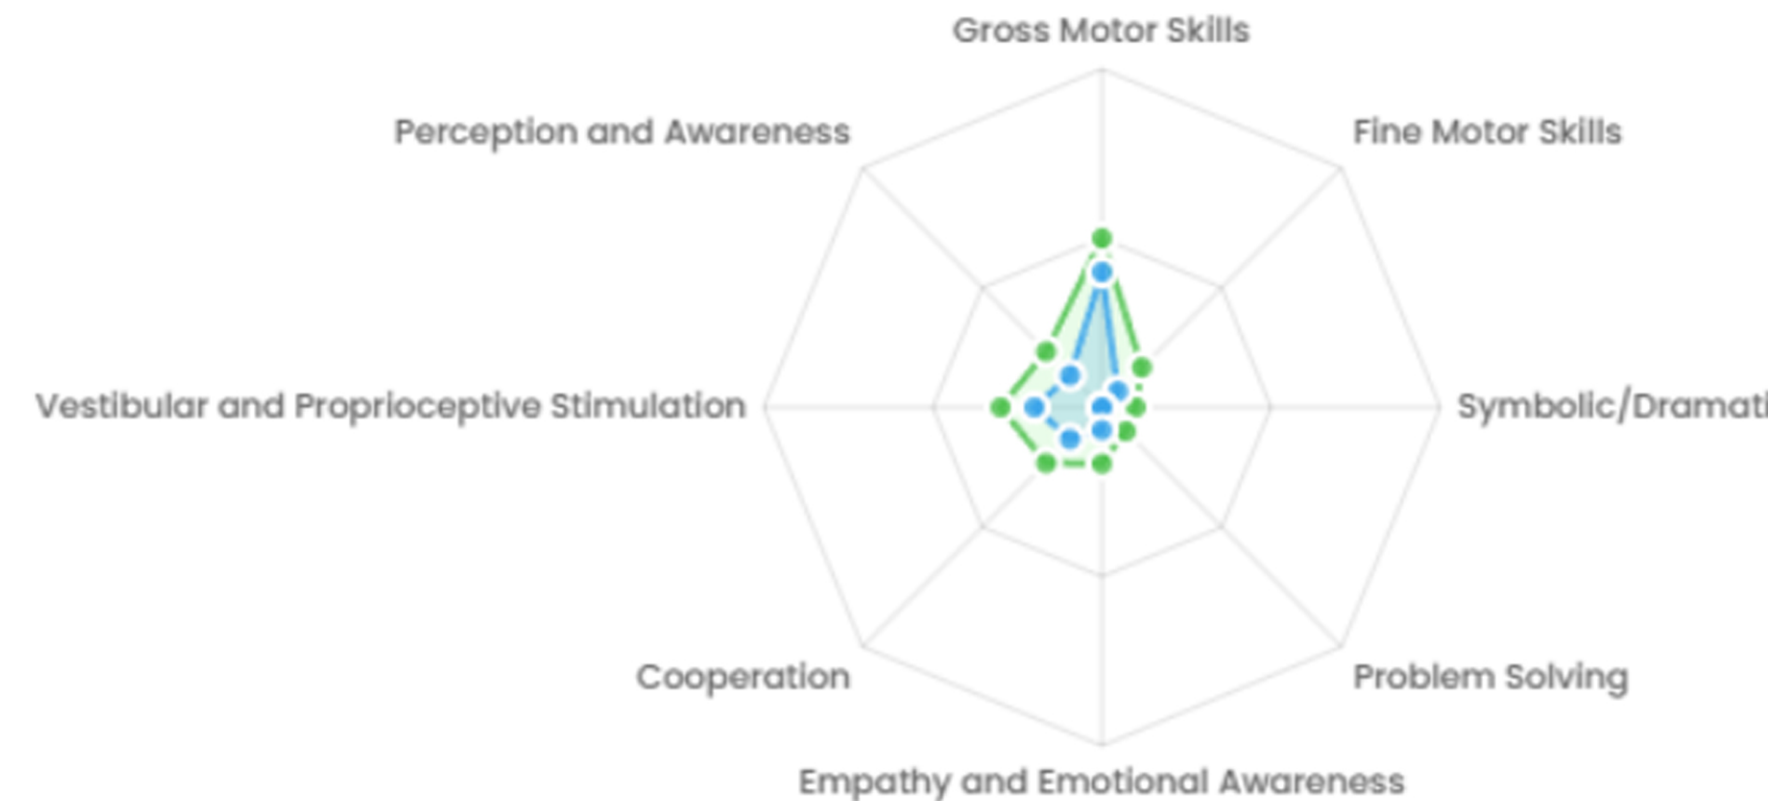

METAL SERIES - AGMS 60

SILVER SERIES - DGSS 28

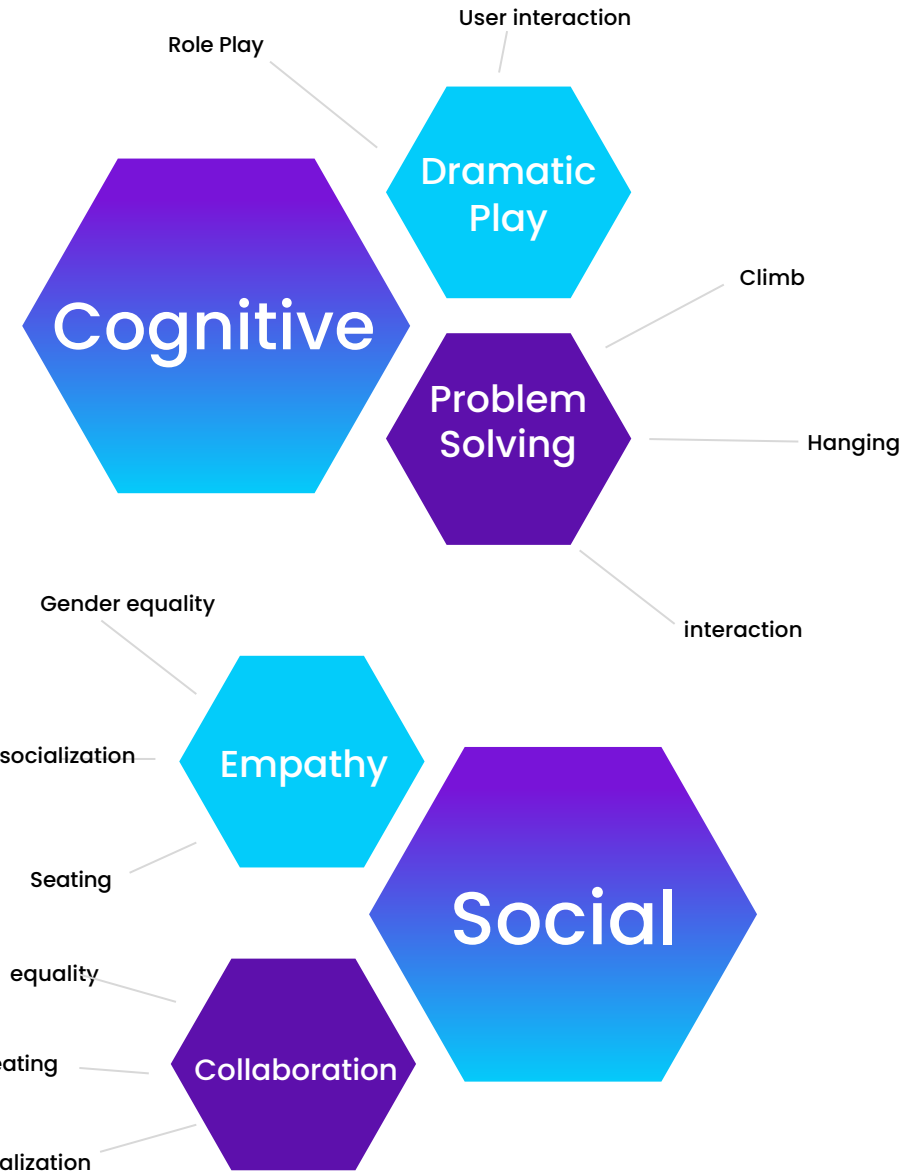

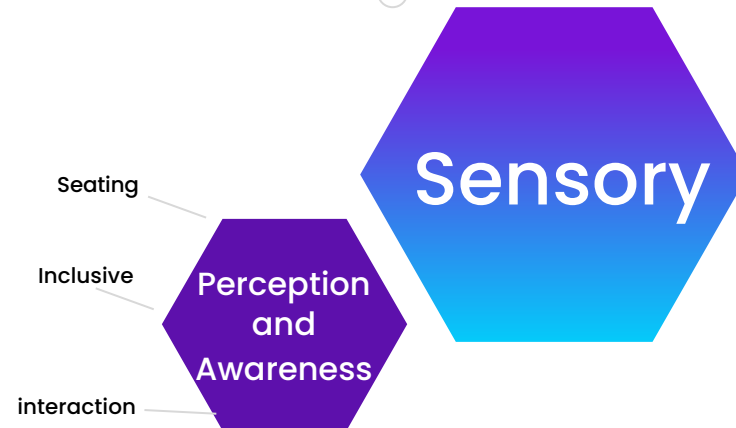

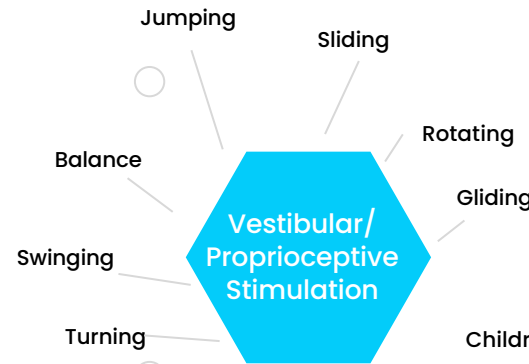

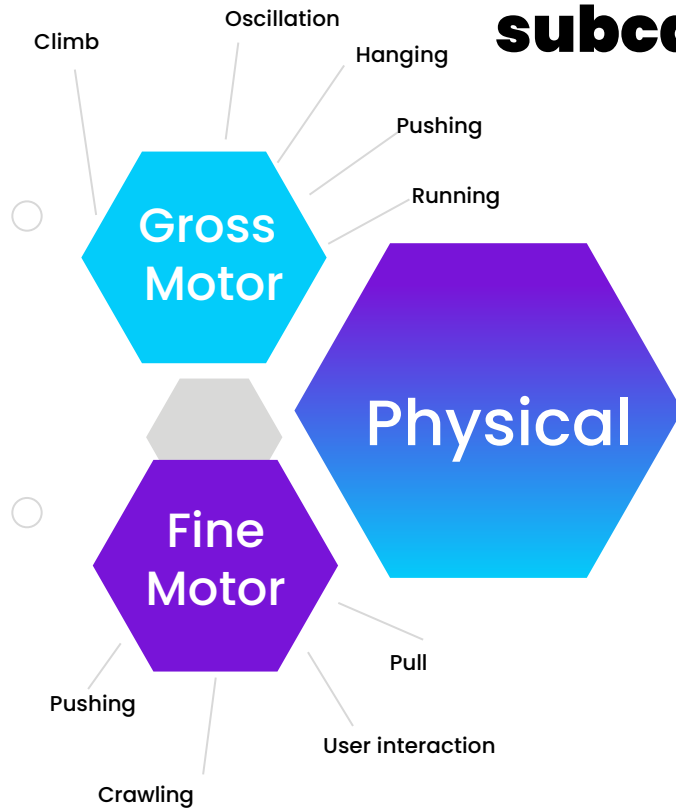

- 1 The system suggests additional products based on the items in your cart.
- 2 Add the recommended products to your playground and enhance its skill chart!
- 3 A radar chart is generated based on 8 activity categories. The chart updates automatically whenever a product is added or removed. At the core of the entire system lie the activity values.
- 4 On the radar chart, green indicates the system's suggested activity areas, while blue reflects the products you've selected.

What Is the Skill Graph?

It is a scientific radar chart that shows which skills each product in your cart supports and to what extent it contributes to your child's development.

The system is built around
4 main categories and 8 subcategories.

With this innovative approach, playgrounds are no longer just spaces for fun — they become environments that actively support children's conscious development . Cemer Playground Equipment offers tailored solutions for preschools, shopping malls, municipalities, and real estate projects. Through the EvoPlay quotation system, it introduces a new perspective by grounding play in scientific principles.
